

DFP NEWS

Your source for important information and specials in the Touch-Up Industry!

Volume One Issue 15 May/June 2006 Published by DFP Inc. ©2006

With summer just around the corner, woodshops are opening their doors and windows to let the sunshine in. However, they are also exposing their work to dirt and dust that can create serious problems during finishing.

Air guns and regular cloths just move the dust around, while tack cloth actually lifts and removes the dust without putting it back in the air. The tack cloth significantly reduces problems with lifting and bonding between coats of finish. Take advantage of our limited time offer to get these workshop necessities at never before seen prices!

PRODUCT NEWS:

- Ongoing sourcing issues have forced us to discontinue our cheesecloth wipers (item 641160). We are in the process of testing high-grade cheesecloth rolls as a possible replacement.
- An update and corrections page for our catalogue is now available for download on our website. Please visit www.dfp.ca and follow the catalogue link.
- Our new Trade Secret Leather Care product is now available, call or email us for your copy

Tack Cloth

Removes dust, dirt, grime and sanding residue!

Specially treated cheese cloth cleans any wood, metal, plaster surface of dust, dirt, grime and sanding residue. Provides a smooth, blemish-free finish. Always soft and tacky - guaranteed to never harden or dry out. Compatible with all paints. Spontaneous combustion proof. Use after all sanding operations. The most effective dust and dirt removal method!

- Anti-static and non toxic
- Wax and Silicone free
